

## Spooner Vicars is now available to offer Burner Services along with Oven Inspections

It is recommended that each oven is given a complete inspection and audit every 12 months. The annual inspection and audit will support a preventative maintenance program and help to ensure excellent oven performance, economy and long life.

### What we offer as part of our burner service

- Strip Burner Down
- Remove Burner Cone and Combustion Air Fan
- Clean Flame Sensor and Ignition Plug
- Clean Combustion Air Fan Impeller
- Visual Inspection of Motors and Clean
- Visual Inspection of the Oven
- Check and Tighten Wiring in Control Panel and Burner (if required)
- Clean Panel Fan Filters (if required)
- Conduct Current Load Readings
- Conduct Gas Pressure Test
- Carry out Flu Gas Analysis

**"Discount" available on parts ordered or service required after inspection**
